

# Supplementary application for Authority to Control or Destroy Game

## Additional information required when applying for an Authority to Control or Destroy Game through MyGL

This form requires you to provide information on:

- the species and number of game that you wish to control or destroy (section 4)
- the specific reason for control or destruction of game (section 5)
- your proposed control or destruction method (section 6).

Game is a highly-valued and sustainably managed resource, with frameworks already in place to allow their recreational harvest and management on private property. An authorisation to control or destroy game is not intended to replace the current management of recreational game hunting, and will be assessed in this context. In addition, your application may be assessed by a Game Manager who may inspect the property to confirm the details set out in this application. Under the requirements of the *Wildlife Act 1975*, an Authority to Control or Destroy Game will only be issued if the GMA is satisfied that it is necessary.

If you are seeking to control or destroy game on Crown land, you must have the permission of the Crown land manager.

This form must be completed and attached to your MyGL application.
